

Person by name Minesh Desai has been illegally selling copies of our copyrighted DAP software from his web site <http://wpbluechip.com>

Recently, we have found that a person by name Minesh Desai has been illegally pirating our DAP software. He appears to be taking on jobs at odesk and elance, sells illegal copies of DAP from his own site, and starts using one DAP user's license key on another person's site.

Hello Ravi

I already am in process of returning payment to thomas, i had told him my situation as well on yesterday.

I wont be able to process his refund via paypal as 60 days were passed, nor i have credit card from which i can pay to him. so i will return his money from my elance escrow account and right now it has \$87 in it.. so i told him to wait a little and i will refund him from there for the past active job we had.

Regarding sales for dap, i have used paypal and i have already sent you true copies of my statement previously which have all info in it. you can confirm with paypal and you will get the same.

Regarding the 3 person, as i said earlier, one person didn't used dap and he had change in plan so i had never installed any dap copy ever and then i gave him service with other help for that money. i had already sent you email addresses, you can confirm with them. one other copy was to person names as Ken, whom than i told to buy dap himself and he did bought \$300 unlimited license same day i told him, i can have him send you receipt of his payment to dap.

Anyway, i have not sold that much copies that you are telling me as of now, i have already told you everything and i can still give you any paypal statement you may want. and i have no other account to take money directly to. this is it.

And i can pay for that one license misuse in thomas's case, and i will do at my earliest convenience as i have to find active credit card. and regarding the online accounts, i knew that i will have to stop dap services, so i had removed all things related to dap from my profiles and will no longer give services for dap to anyone. i agree that point as well.

I also don't want to put you in any trouble, i totally understand your concern. so lets just wrap this up easily with understanding each other and i will also write you the way you want me to. i am totally fine with this.

I hope to hear positive from you on this. thanks for your time.

You can verify my profiles now, i have removed all instances of dap and the keywords as well portfolio too. but if you find anything, just let me know, i will take care of it as well.

Thanks

How do i write you down in written that i wont ever do this again, and if i do this you are allowed to take further actions
How can i deliver you written copy?

Regards,
-Minesh

Yes
Also in my paypal there is no other payments regarding to dap

And as i removed the other serials i dont know which serial i had used for client.

Regards,
-Minesh

Here's the elance job where he sold DAP illegally to an unsuspecting client.

Date	Description	Debit US\$	Credit US\$	Balance US\$
04-FEB-14	Funding for Wanted: Putting Together Membership Plugin/Optimize Press 2.0 to Escrow Account for project bid ID 52577808. Document #16467167	140.00		0.00
04-FEB-14	PayPal payment		140.00	140.00

He has been distributing our software illegally from his own site, while also accepting payments for our software from unsuspecting clients on elance and odesk.

Notification

He has been accepting Paypal payments using the email wpbluechip@outlook.com and/or minesh.desai@live.com

Above thread of emails show you that he has since been caught red-handed and has confessed to stealing and selling our software illegally.

Please help us ban this person's account on your site so that he doesn't continue to defraud unsuspecting clients who seem to hire him based on his feedback ratings, many of which arose out of selling clients our software illegally.
